PROFILE SUMMARY

An ambitious surveying and geo-informatics graduate with HND at Federal Polytechnic Ilaro and Btech at Bells University of Technology ota, having a class of Distinction in HND and a Second class upper in Btech, in both the second best student in the department that set. I have worked in different survey firms, performing system analysis of survey raw data, GIS data analysis, lot of engineering and cadastral survey works in which I displayed a strong commitment to deliver all given responsibility, quick to grasp new ideas and concepts. Currently a Technologist in the department surveying and geo-informatics the federal polytechnic ilaro and an Assistant Pastors in the spirit of faith Church Ilaro, burdened with impacting knowledge, willing to be an integral part in purpose driven team & result achieving focused. Also having a good communication skills, awesome interpersonal skills, honest and proficiency in the use of computer, and above all ready to improve in all ramification especially in knowledge.
