LACKADAISICAL ATTITUDE OF SOME STUDENTS TOWARDS ASSESSMENT OF NELFUND LOAN

The Management of the Institution feels **greatly concerned** that out of **Two Hundred and Thirty-two (232) successful applicants** from the Students populace of The Federal Polytechnic, Ilaro who applied for **Nigerian Education Loan Fund (NELFUND)**, just **One Hundred and Sixty (160)** that is, **68.97%** have been to the **Directorate of Student Affairs to access their Loan.**

This is a laudable project of the Federal Government of Nigeria and the Management is surprised that **Seventy-Two (72) successful applicants** have not **made any move** to process and access their monies.

The Management has mandated that those Students should proceed to the Directorate of Student Affairs to do the necessary processing and collect their monies with immediate effect.

The Dean, Student Affairs should publish the Seventy-two Names on Students Platforms for adequate publicity.

Thank you.
